PROFESSIONAL SUMMARY

ERP Project Manager with 4+ years of ERPNext implementation, consulting and development experience in the Angolan market. Leads the ERP team and ISOFT ERP projects for 15+ companies in retail, distribution, manufacturing, services and education, from business analysis and solution design to go-live and ongoing support. Pairs functional expertise in accounting, sales, purchasing, inventory, HR/payroll and POS with hands-on Frappe development, having built 9 custom applications, including AGT electronic invoicing, SAF-T AO export, a complete inventory management platform and an AI business assistant.

CORE COMPETENCIES

ERP Implementation & Go-Live | ERP Project Management | Team Leadership | Business Process Analysis | Requirements Gathering | Functional & Technical Consulting | Frappe/ERPNext Development | AI Chatbot Integration | AGT Tax Compliance | Systems Integration | Reporting & Dashboards | User Training & Support | Linux Server Administration

PROFESSIONAL EXPERIENCE

ITEC LDA

Jul 2022 – Present

Luanda, Angola and Lebanon (on-site) | Software company behind ISOFT ERP

ERP Project Manager

2025 – Present

- Lead the ERP team: set priorities, allocate work across development and support, and make technical and delivery decisions for client projects.
- Direct ISOFT ERP implementations end to end (discovery, scoping, configuration, customization, go-live, user training and post-go-live support) for 15+ companies in five industries.
- Drive ongoing development of ISOFT ERP, prioritizing updates, fixes and new modules based on client needs and changes in Angolan fiscal requirements.
- Act as the escalation point for business owners, accountants and consultants on functional, technical and fiscal issues.
- Built and led a local Angolan support team that provides on-the-ground client coverage, end-user training and ongoing support.

ERP Consultant & Developer

2023 – 2025

- Ran requirements meetings with clients and translated business problems in accounting, selling, buying, inventory, HR and POS into working ERPNext solutions.
- Diagnosed and resolved production issues on client sites, covering data, configuration and code problems.
- Integrated ERPNext with Shopify, WordPress and third-party APIs.
- Administered Linux production servers: setup, database migration, performance tuning, Cloudflare DNS, SSL/TLS, reverse proxy and backup/restore automation.

ERP Support Specialist

2022 – 2023

- Provided end-user support and training across ERPNext modules while learning the platform through hands-on implementation work.
- Moved into customization and client problem-solving within the first months.

KEY PROJECTS

ISOFT ERP (ERPNext-based ERP for the Angolan market)

ITEC LDA | Jul 2022 – Present

Company ERP product built on ERPNext, in production at 15+ companies. Responsible for its development, updates, problem solving and implementations.

ERPNext customization & administration

- Customized standard ERPNext for client processes using custom fields, client and server scripts, validations, workflows and automations.
- Built SQL and script reports, KPI dashboards and print formats for finance, stock, procurement, sales and HR.
- Administered client systems: users, roles and permissions, system settings and master data.

Custom modules designed and developed

- **Invenza Inventory Management:** All-in-one inventory platform: item catalogue with inline and bulk pricing; per-warehouse safety stock with demand-based transfer and purchase suggestions (days of cover, lead time, in-transit stock); Excel import/export of items, barcodes and prices; label printing; stock valuation and sales analytics by warehouse and customer.
- **AGT Electronic Invoicing:** Integration with the Angolan tax authority's e-invoicing API: JWS-signed invoice registration, status tracking, retries and QR codes on printed documents.
- **SAF-T AO Export:** Statutory SAF-T XML export for sales, purchases and inventory.
- **Angola HR & Payroll:** IRT tax brackets, statutory rates and submissions, employment contracts, salary advances, final settlements and bank payment exports.
- **Warehouse Location Manager:** Warehouses split into zones and shelves, with shelf selection inside stock transactions, location stock, movements and inventory counts.
- **Insights:** Sales and purchase analytics, business charts and Angolan-format financial statements.
- **Intelize Payment Gateway:** Automatic import of Intelize (Angola) payments and references into ERPNext.
- **AI Business Assistant:** Chatbot inside the ERP that answers users' business questions in plain language (Portuguese or English) from live data, using verified, permission-aware queries.
- **Command Center:** Central console and on-site agent that monitor and manage 16 client ERP sites, with support ticketing, task management and announcements.

ERP Lite

ITEC LDA | Jan 2024 – Aug 2024

AGT-compliant ERP (SAF-T AO, e-invoicing) for small businesses on Laravel REST API, React/TypeScript and MySQL: invoicing, sales, purchasing, inventory and basic accounting, with RBAC and audit logging.

ITSM Platform (GLPI)

ITEC LDA | Sep 2024 – Dec 2024

Custom plugins and workflows for incident, request and change management, SLAs and CMDB.

Humanitarian Family Aid Management System

Personal, Lebanon | Oct 2024 – Nov 2024

Aid tracking for displaced families, delivered in one month; bilingual, still in field use.

SKILLS

- **ERP Modules:** Accounting, Selling, Buying, Inventory & Warehouse, HR & Payroll, POS, Manufacturing, CRM
- **ERP & Frameworks:** ERPNext, Frappe Framework, POS Awesome, Laravel, React, Node.js
- **Languages & Data:** Python, JavaScript/TypeScript, PHP, SQL, MariaDB, MySQL, REST APIs
- **AI:** LLM chatbot integration (Anthropic Claude API, OpenAI API)
- **Infrastructure & BI:** Linux, Cloudflare, SSL/TLS, reverse proxy, backups, OpenVAS, Nmap, Power BI, Metabase, Grafana
